Introduction To Hunting In Montana

Welcome to Montana's 2006 hunting season! Montana's hunting and fishing license year is March 1, 2006 – February 28, 2007.

This hunting regulations booklet contains information you need to know for a safe and legal hunting experience. It is your responsibility to know the regulations before you hunt.

Below are key topics in the order in which they are presented. Please refer to the index for detailed page listings.

Regulations Adopted by FWP Commission

These regulations are adopted under the authority granted to the Fish, Wildlife & Parks Commission (FWPC) per MCA 87-1-301, and are valid March 1, 2006 through February 28, 2007. These regulations were adopted by the FWPC on February 9, 2006. However, season quotas are tentative and may be subject to FWPC changes. The FWPC reserves the authority to amend the seasons, limits and regulations herein if deemed necessary for wildlife management purposes. M. Jeff Hagener, Director.

State and Federal laws, Title VI of Civil Rights Act of 1964, Section 504 of the Rehabilitation Act of 1973, Title II of the Americans with Disabilities Act of 1990, the Age Discrimination Act of 1975, and Title

IX of the Education Amendments of 1972, prohibit discrimination on the basis of race, color, sex, age, religion, national origin, or disability. Anyone believing he or she has been discriminated against (as described above) in any Fish, Wildlife & Parks (FWP) program, activity, or facility may write to FWP Personnel Office, 1420 East Sixth Avenue, PO Box 200701, Helena, MT 59620-0701 or the office of Equal Opportunity, U.S. Department of the Interior, Washington, D.C. 20240.

What's New?

- Free Conservation or reduced rate Sportsman's License for resident military personnel returning from contingency operations outside the state.
- Nonresident Youth Big Game Combination license at half the price of a Nonresident Big Game Combination License.
- Reduced Nonresident Turkey licenses for nonresidents holding a upland Game Bird, Big Game or Deer Combination license.
- Half Priced Deer and Antelope licenses for certain disabled combat veterans.
- Reduced licenses for Nonresident child of a Resident.
- Fee increases for several resident licenses.
- Montana resident members of the Montana National Guard, Federal Reserve or Active Duty who participated in a contingency operation outside the state for six months and have been released from active duty or discharged are entitled to a free conservation license or a sportsman w/o bear license for a fee of \$29.00. These licenses will be issued only at FWP offices. DD 214 and supporting documentation is required.
- Certain combat disabled veterans are entitled to half price deer and antelope licenses, contact FWP license Bureau @ (406) 444-2950 for details.
- Nonresident children of residents may be entitled to reduced rate licenses for up to six years from the date they received their diploma or GED. To qualify the child must have: been born and raised in MT; attended and completed HS or attained a GED in MT; and the parent(s) still reside in MT. Licenses will be issued at FWP offices with verification of Birth Certificate, MT HS Diploma or GED, and proof that natural or adoptive parent is still a current MT resident.

Check the FWP website for late changes by the FWP Commission or the Montana Legislature.

Key Terms

FWP Office: FWP operates seven Regional Offices, four Area Resource Offices, and the Headquarters in Helena. See back cover for addresses and phone numbers.

General Season: Also referred to as the "firearm season." For moose, mountain goat and bighorn sheep this is the period from mid-September to late November that is generally available for hunting with a rifle, shotgun, muzzleloader, crossbow or archery equipment. The specific dates and any weapons restrictions for each hunting opportunity is specified in the hunting district regulations.

HD: Abbreviation for Hunting District.

Hunting Hours: Authorized hunting hours for the taking of big game animals begin one-half hour before sunrise and end one-half hour after sunset each day of the hunting season. See the official Sunrise-Sunset Tables listed at the end of these regulations.

License Provider: Any agent authorized to sell Montana hunting and fishing licenses. Includes commercial businesses—such as sporting goods dealers and convenience stores, as well as FWP offices and FWP Online Licensing.

LPT: Abbreviation for License/Permit Type. FWP uses a 5-digit code to describe the types of licenses offered for each species. The 5-digit code is unique for each license type for a given species. The first three digits usually indicate a hunting district and the last two digits identify the sex/age class and whether it is available over-the-counter.

Online Licensing: You can purchase many of your hunting licenses from FWP Online Licensing.

- Go to fwp.mt.gov/hunting/obtain a license and follow the instructions.
- Online purchases must be made by using a MasterCard or Visa credit card.
- For a Montana resident to purchase a current year conservation license online, he/she must have purchased a conservation license through the automated licensing system (ALS) in a previous license year and have an ALS number. See Residency Requirements.
- Don't wait until the last minute. While some temporary licenses may be printed from your home computer, any license purchased online that requires a carcass tag, (i.e., deer, elk) cannot be printed from home. FWP will mail carcass tags to you within 10 days of your purchase.

License Year: Montana's license year is March 1 through the last day of February of the following year. The 2006 license year is March 1, 2006 – February 28, 2007.

Over-the-Counter: Term used when a license or permit may be purchased from License Providers, rather than only through a special drawing.

Quota: The quotas in this booklet are tentative. Final quotas are adopted by the FWP Commission after this booklet is printed. Special drawings are based on final quotas.

Weapons Restriction: Weapons restrictions are in effect in some hunting districts. Such restrictions are stated in the license/permit description and/or with a specific date range. Only certain weapons meeting the requirements may be used.

General Information for Obtaining a License

Mailing Lists

FWP regularly receives requests for mailing lists. To better protect your privacy, when you purchase a conservation license you'll be asked if you want your name and address included on mailing lists that FWP will compile for vendors, businesses and others who seek this information.

While FWP will not include your name and address if you so request, it is important for you to know that Montana law requires FWP to allow public access to department records. As a result, vendors, businesses and others who wish to compile their own mailing lists may do so.

Your privacy is important to FWP and the State of Montana. To further protect your privacy, FWP will not allow access to your Social Security number, ALS number, phone number, age, date of birth, employer, height, weight, eye and hair color.

Residency

It is illegal to swear to or to affirm a false statement in order to obtain a resident hunting and/or fishing license.

If you are unsure about your residency status, contact your local FWP office using the phone numbers listed on the back cover or the Helena Enforcement office at 406-444-2452.

Resident: To be a legal Montana resident and eligible to purchase any Montana resident fishing, hunting, and trapping licenses, as per MCA 87-2-102, you must:

- have been physically living in Montana for at least 180 consecutive days immediately prior to purchasing a resident license;

Residency – continued from page 3

- register your vehicle(s) in Montana;
- be registered to vote in Montana if you're registered to vote at all;
- not possess current (or have applied for any) resident hunting, fishing, or trapping privileges in another state or country;
- file Montana state income tax returns as a resident, if you are required to file.

Once you have established your residency, you must continue to meet all these requirements and physically reside in Montana as your principal or primary place of abode for not less than 120 days per year (days need not be consecutive).

Nonresident: Montana's nonresident guests are eligible to purchase or apply for most Montana fishing, hunting, and trapping licenses. By state law, nonresidents are limited to, but not guaranteed, 10 percent of the license and/or permit quota. The **Licenses Available Chart** provides details.

Note: Nonresident unmarried minors, at least 12 but not older than 17 years of age, can hunt in Montana as a resident if the minor's parents, legal guardian, or parent with joint custody, sole custody, or visitation rights is a legal resident of Montana.

Prerequisites

Conservation License: Each new license year, a new Conservation License is required to purchase any fishing, trapping or hunting license(s), or to apply for special licenses/permits. Most licenses can be purchased from any License Provider beginning late February.

To purchase a resident conservation license, you'll be asked to show a valid Montana Driver's License (MDL) or a valid Montana Identification Card (MIC). If your MDL or MIC has been issued for less than six months, you'll be required to show additional proof of residence. Contact your local FWP office for specifics.

In compliance with the Federal Welfare Reform Laws, Montana law requires each resident and nonresident hunter, including youth, to provide his/her Social Security number when purchasing a conservation license or obtaining a conservation license through special drawings.

Montana is a member of the Interstate Wildlife Violator Compact. Under the compact, member states recognize suspensions of hunting, fishing or trapping privileges. It is illegal for a violator whose privilege to hunt, fish or trap is suspended to obtain or attempt to obtain a license, tag or permit in a member state. For more information, call 406-444-2452.

Hunter Education: If you were born after January 1, 1985, you are required to provide proof of completion of a Montana hunter safety and education course or an approved hunter safety course from any other state or province prior to applying for or purchasing a hunting license, whether the hunting license is for the rifle or archery season.

- Duplicate Hunter Education certificates of completion for the Montana hunter education and/or bowhunter education courses may be obtained from FWP's website.

Remedial Hunter Education Program: Per MCA 87-1-120, a person who is sentenced by the court to complete a remedial hunter education program shall pay the costs directly attributable to the person's participation in the remedial hunter education program. A participant whose hunting, fishing, or trapping license has been revoked for a hunting violation shall successfully complete the program before license privileges may be reinstated.

Hunting Licenses

Refer to the Licenses Available Chart for a complete list of resident and nonresident licenses and application or purchase deadlines.

Licenses must be carried on your person at all times while in the field and hunting, and must be produced if requested by FWP Enforcement personnel.

Most moose, mountain goat and bighorn sheep licenses are available only through a Special Drawing. Some may either be purchased from any License Provider, including Online Licensing, or applied for via a Special Drawing. Special Drawing applications must be postmarked by the deadline.

Only one license of any type may be purchased each year, unless otherwise specified and allowed in the regulations.

It is illegal to:

- Swear to or affirm any false statement when obtaining licenses or permits.
- Loan or transfer a license to another person or to use a license issued to another person.
- Carry or have physical control over a valid and unused hunting license or permit issued to another person while in any location where the species to be hunted occurs.
- Alter a license or permit for any reason.
- Hunt, fish, or trap while your license is suspended or revoked, or apply for a license or permit for a suspended privilege.

Hunting License: The license authorizes the holder to hunt the species identified on the license according to the regulations specified. This hunting license (sometimes referred to as a "tag") must be attached to a harvested animal to show proper authorization to hunt and kill that particular animal. Please refer to "Procedures to Follow Upon Harvesting an Animal" for complete instructions on what to do when an animal is killed.

Types of Licenses: All licenses that can be used in a hunting district are listed in the regulations for that hunting district.

- **Conservation License:** Prerequisite for all resident and nonresident licenses. Includes the state lands recreation license (for hunting, fishing and trapping purposes).
- **Special License:** Special licenses are generally available through the Special Drawing. It allows you to hunt in an area and time period for a specific sex and age class of animal.
- **Duplicates:** If you lose your license, a fee will be charged to replace it. A duplicate can be issued by most License Providers. You must sign a statement declaring that your original license(s) is lost, stolen or destroyed. If the original license(s) is found, it must be returned to FWP.

Availability of Licenses

Deadlines:

- Applications and special licenses have purchase or application deadlines. The Licenses Available Chart provides details.
- Moose, mountain goat and/or bighorn sheep applications must be postmarked by the U.S. Postal Service no later than May 1 or hunters may apply online no later than May 1 for special licenses for moose, mountain goat, and bighorn sheep.
- Applications are generally available one to several months before the deadline. They are available at License Providers or may be downloaded from the FWP website. Nonresidents may request an application at 406-444-2950.
- You must have your application in on time. You may have your application entered directly into the system at an FWP office or you may mail in your application. If the application is mailed, it must be postmarked no later than the deadline date. The postmark must be an official U.S. Postal Service mark. A postage meter postmark cannot be accepted.
- Licenses that have a purchase deadline may be purchased no later than the deadline date.

Drawing Applications: Drawing applications are available from License Providers and from FWP's website. If mailed, completed applications must be returned to the address listed on the application form.

2006 MSG Tentatives 12-12-05

Some licenses are valid only in a portion or portions of a hunting district. Carefully review the description of the district for which you are applying. A copy of the "portion of district" legal description is available online at fwp.mt.gov, by mail from the Montana Fish, Wildlife & Parks Wildlife Division, PO Box 200701, Helena, MT 59620-0701 or email fwpwild@mt.gov.

Both resident and nonresident hunters are eligible to apply for most of the licenses awarded through the special drawings. By state law, nonresidents are limited to, but not guaranteed, 10 percent of the license and/or permit quota. The Licenses Available Chart provides details. Drawings are based upon the final quotas adopted by the FWP Commission which may differ from the quotas listed in the hunting district regulations.

For specific special license opportunities please refer to the hunting district regulations where you will find a complete list of all available hunting opportunities for each hunting district.

Unlimited Over-the-Counter Licenses: Certain bighorn sheep licenses with unlimited quotas were formerly available only through a special drawing application. They are now available for purchase over-the-counter from License Providers or via the special drawing. While an over-the-counter purchase allows you to obtain the unlimited license immediately, the license still must be purchased by the May 1 deadline. If you purchase an unlimited over-the-counter license, you cannot apply for the same species with a drawing application. If you do not purchase an unlimited license over-the-counter, you can apply for them via the special drawings.

Drawing Process: FWP's special drawings are computerized and completely random. A computer assigns each application a randomly selected number. In other words, the computer randomly draws assigned numbers, not applicant names.

Drawings are conducted species by species, license type by license type. For example, when conducting the drawing for moose licenses, the computer starts with the first moose license type: 100-00. If the quota is 10, the computer starts selecting applicants who applied for this license type. When that license type quota has been filled, the computer goes to the next license type and completes the same process until all quotas are filled.

Bonus Point System: The fee to participate in the voluntary bonus-point system is \$2 for Montana residents and \$20 for nonresidents, payable with the special drawing application fees. Here's how the bonus system works:

- Applicants accumulate one bonus point for each unsuccessful year. Each bonus point essentially becomes an extra chance in future drawings. For example, applicants would have one chance to be drawn the first year they apply. If unsuccessful, they would have two chances to be drawn the following year and three chances the next year, and so on until they received the license. Once successful, the applicant loses all bonus points for that species.
- An applicant loses all bonus points if he or she fails to apply for a permit or license for more than two consecutive years for a particular species. There is an exemption for Montana residents with full-time active military status.
- Bonus points are accumulated independently for each species and only for "first-choice" districts. An applicant may skip two consecutive years of participation without forfeiting accumulated points, but if an applicant skips the third year—or has errors that eliminate the applicant from the drawing—all accumulated points will be lost.
- Rejection of an application because of applicant error is equivalent to failure to apply.
- Points are non-transferable.
- FWP will contact bonus-point participants each year by postcard to report their accumulated points. Bonus-point status is also available online. It will be the applicant's responsibility to report any discrepancies.

Special Drawing Results – dates are approximate

License	Drawing Results	Refunds Mailed
Nonresident	Mid April	End of April
Combination		
Moose, mountain	Third week of June	End of June
goat, bighorn sheep		
Deer, elk, antelope	Mid August	End of August

You may check for drawing results online at fwp.mt.gov.

Fees and Refunds: In addition to the cost of each license, there is a \$5 nonrefundable drawing fee for each license you apply for. The \$5 fee covers the cost of printing and processing the application.

In some situations, FWP may refund resident or nonresident – in full or in part – fees for licenses and/or special drawings. Situations include:

Reason	Deadline	Refund
Death of licensee	12/31/06	100%
Death of family member	12/31/06	90%
Medical emergency	12/31/06	90%

The appropriate documentation (death certificate, medical statement, etc.) must accompany the unused license(s) and a signed request form certifying the license(s) have not been used. Nonresident license holders should call 406-444-2950 for information.

Call Special Licensing at 406-444-2950:

- if you do not receive your license or refund within 2-3 weeks of time from refund dates. Note: the license fee is refunded if an applicant is unsuccessful in the drawings, unless there is a valid obligation owed to the State of Montana or if the refund is less than \$5. If a valid obligation exists, the refund may be retained by the State Auditor and applied against that amount.
- for information on special drawings for big game hunting.

License Special Drawing Codes: FWP uses a 5-digit code (e.g., moose 100-00, bighorn sheep 270-30, mountain goat 393-00) to describe the types of licenses offered for each species. The 5-digit code is unique for each license type for a given species.

The first three digits usually indicate a hunting district and the last two digits usually identify the sex/age.

Special Considerations

Armed Forces: A member of the regular armed forces of the United States, a member's dependent who resides in the member's Montana household, or a member of the armed forces of a foreign government attached to the regular armed forces of the United States is considered a resident for Montana hunting, fishing and trapping licenses if:

- the member was a resident of Montana under the provisions listed under residency at the time the member entered the armed forces and continues to meet applicable residency criteria per MCA 87-2-102; or,
- the member is currently stationed in and assigned to active duty in Montana, has resided in Montana for a least 30 days, and presents official assignment orders and a certificate verifying successful completion of an approved hunter safety course from any state or province.

Hunters with a Disability: For applications, detailed eligibility requirements, and information on licenses and permits for hunters with disabilities contact any FWP office or the FWP website. See back cover for addresses and phone numbers.

- **Resident With a Disability Conservation License:** Residents certified as permanently and substantially disabled, as defined by FWP rules, may purchase a conservation license for \$8 which includes fishing, warm

Continued from page 7

water fishing, upland game bird (excluding turkey), state waterfowl license, and state lands license for hunting, fishing and trapping purposes. The license holder may also purchase a deer A and elk license at a discounted price. Applications for a Resident With a Disability Conservation License are available at all FWP offices and FWP website. The certification is valid for the life of the holder or until changed by the Legislature.

- **Permit To Hunt From a Vehicle (PTHFV):** Residents and nonresidents certified as permanently and substantially non-ambulatory, as defined by FWP rules, may apply for a PTHFV. The PTHFV allows a person to hunt from a vehicle. A companion who is able to assist with field dressing a game animal must accompany the permit holder while hunting. It is illegal for the companion to shoot from the vehicle. Check with the appropriate land management agency or landowner regarding motorized access.

Visually Challenged Individuals: A copy of the big game regulations is available in an alternative format upon request. Call 406-444-2535 for details.

Youth Hunter:

- Youth who are at least 12 through 17 years of age are eligible for a variety of licenses, permits, and programs depending on age and residency status. There are also special requirements that apply to youth of certain ages.
- A youth who is 12 years of age, or who turns 12 before or during the season for which the license is issued, may apply for a special license and/or permit, but must be able to show proof of having completed an approved hunter education course when applying.
- Any Montana youth 12 through 17 years of age who successfully completed a hunter safety and education course, and who seeks to purchase his or her first hunting license, is entitled to receive a Resident Youth Combination Sports License free of charge.
- In order to carry or use a firearm in public, a youth 12 through 13 years of age must be accompanied by a person having charge or custody of the child, or be under the supervision of a qualified firearms safety instructor or an adult 18 years of age or older who has been authorized by the youth's parent or guardian.

Guidelines, Rules and Laws for Hunting in Montana

Hunter Orange Requirement

Firearm Hunters: Any person hunting or accompanying a hunter as an outfitter or guide must wear a minimum of 400 square inches of hunter orange (fluorescent) material above the waist, visible at all times.

Seasons

Montana offers hunting opportunities for the use of both firearms and archery equipment.

General Season: Also referred to as the "rifle season." For moose, mountain goat and bighorn sheep, this is the period generally from mid-September to late November that is available for hunting with a rifle, shotgun, muzzleloader, crossbow or archery equipment. The specific dates and any weapons restrictions for each hunting opportunity will be specified in the hunting district regulations. All hunters are required to wear hunter orange.

Archery Season: There is no Archery Only Season for moose, mountain goat or bighorn sheep.

Weapons Restriction Areas: Weapons restrictions are in effect in some hunting districts. Such restrictions are stated in the license/permit description and/or with a specific date range. Only certain weapons meeting the requirements may be used.

Methods and Means of Hunting

Firearms: There is no caliber limitation during the General Season for the taking of big game animals.

The use of poisonous, explosive, or deleterious substances on or in any bullet or projectile is prohibited. The possession of firearms with silencers while afield is illegal.

Muzzleloaders, Traditional Handguns and Shotgun: The following equipment restrictions apply to Weapons Restriction Areas:

- **Muzzleloader:** There is no special season for muzzleloaders. A muzzleloader:
 - must not be capable of being loaded from the breech of the barrel;
 - may not be loaded with any prepared paper or metallic cartridges;
 - must be charged with black powder, pyrodex, or an equivalent;
 - must be ignited by a percussion, flintlock, matchlock, or wheellock mechanism;
 - must be a minimum of .45 caliber;
 - may have no more than two barrels; and
 - must only use lead, not sabots.
- **Traditional Handguns:** A traditional handgun:
 - is not capable of being shoulder mounted;
 - has a barrel length of less than 10 ½ inches;
 - chambers only a straight wall cartridge, not originally developed for rifles.
- **Shotgun:** Definition of shotgun for use in Weapons Restriction Areas:
 - a shouldered, breech-loaded or muzzle-loaded firearm with a smooth bore and/or rifled barrel and/or rifled choke device designed to fire shot or rifled slugs.
- **Crossbows:** Crossbows may be used during the General Season and in most Weapons Restriction Areas during the General Season. They are prohibited in ArchEquip Only restricted areas or hunting districts unless specifically allowed.

Archery: The following equipment restrictions apply to all hunters in ArchEquip Only areas:

- **Illegal Archery Equipment:**
 - The following archery equipment is prohibited in an ArchEquip only area or hunting district:
 - Electronic or battery-powered devices attached to a hunting bow.
 - A bow sight or arrow which uses artificial light, luminous chemicals such as tritium, or electronics.
 - The following archery equipment is illegal during any season:
 - Any chemical or explosive device attached to an arrow to aid in the taking of wildlife.

Hunter Access

It is your responsibility as a hunter in Montana to always know where you are, to know who owns the land, and to know what access restrictions apply. Always carry a map that clearly marks hunting district boundaries, landownership, and travel restrictions. Maps may be obtained at most federal agencies such as U.S. Bureau of Land Management and U.S. Forest Service offices, as well as some sporting goods stores. Also, be sure to visit FWP's website for the 2006 Interactive Hunt Planner for more access information.

Block Management: The Block Management program is a cooperative effort among private and some public landowners, FWP, and hunters. The program seeks to: (1) maintain public hunting access to private and isolated public lands; (2) help landowners manage public hunting and provide benefits to offset impacts like increased road maintenance and weed control; and (3) help FWP manage wildlife. Each FWP Region administers the Block Management Areas (BMAs) for its portion of the state. If you are interested in hunting a BMA, contact the regional office in the area you wish to hunt.

Regional tabloids listing lands enrolled in the program are available annually on August 15, which is also the earliest date to reserve access to a BMA. For general information about block management, contact FWP at 406-444-2602.

Private Land: Montana law requires permission for all hunting on private land. Even if the land is not posted, hunters must have permission from the landowner, lessee, or their agent before hunting on private property. Landowners may grant permission face-to-face, over the phone, in writing, or by posting signs that explain the type of hunting allowed—game species or sex—and under what conditions. Visit FWP's website for the 2006 Interactive Hunt Planner or visit nris.state.mt.us/gis for assistance with land ownership.

Railroad Access: Railroads and railroad right-of-ways are private property and may not be hunted without permission, nor should they be used as access to other lands (private or public) without explicit permission from the railroad. Consult the individual railroad for details.

Stream Access: Big game hunting between the ordinary high water marks of streams and rivers is illegal without landowner permission. Landowner permission must be obtained to hunt private lands adjacent to waterways.

Public Land:

- National Parks are closed to hunting.
- National Wildlife Refuge lands are closed except those areas designated open to public hunting. For hunting opportunities on National Wildlife Refuges or Federal Waterfowl Production Areas, inquire at the local refuge office.
- For hunting opportunities on federal lands (such as U.S. Forest Service or U.S. Bureau of Land Management), inquire at the local federal office.
- Access to public lands through private land requires permission of the private landowner, lessee, or their agent.

State School Trust Lands: A \$2 fee paid when you purchase your conservation license, provides hunters, anglers and trappers access to legally accessible State School Trust Lands. Trappers still need to secure a "Special State Lands Recreational Use License" from the Department of Natural Resources and Conservation (DNRC), usually at no additional charge. Other recreational activities such as hiking and bird watching still require the \$10 fee. These activities cannot, by Federal statute, be covered by the conservation license. These rules apply:

- On lands outside designated campgrounds there is a 2-day camping limit.
- Overnight (2 night) camping is allowed within 200 feet of a legal access point.
- Horses may not be kept on state land overnight.
- Motorized travel is only allowed on public roads or on designated roads.
- Designated roads signed as "open" to motorized vehicle use or the information as to which roads are designated as open is available from the DNRC offices.
- Motorized use of other roads and trails and all off-road use is prohibited.
- Game retrieval is by foot or horse only.
- No open fires are allowed except in designated campground fire pits. Contained mechanical heat sources are allowed.
- Firearms may not be discharged within ¼ mile of an inhabited dwelling or outbuilding without permission of the inhabitant.
- State School Trust Lands within Block Management Areas (BMA) may have more liberal regulations. Consult the individual regulations for specific BMAs.
- Additional information regarding the rules, regulations, and restrictions governing these activities is available from FWP or DNRC at 406-444-2074.

State Game Preserves: State game preserves may or may not be open to limited hunting. See Areas Closed or Limited to Hunting Methods for Big Game.

State Wildlife Management Areas (WMA): Wildlife Management Areas are generally open for hunting. They are closed to public entry, unless otherwise posted, from the day following the end of the general deer-elk season or December 1, whichever is later, to May 15 each year, as posted.

- Exceptions: Blackfoot-Clearwater WMA closes November 10; Kootenai Falls WMA is open year long; Porcupine (Gallatin), Dome Mountain, Bear Creek and Wall Creek WMAs open May 1.

Tribal Land: Only tribal members are allowed to hunt big game on Indian Reservations, unless otherwise provided for by agreements between the State of Montana and Tribal Government. For questions contact the respective Tribal Government office.

Reporting Requirements

Check Stations: All hunters and anglers are required by law to stop as directed at all designated check stations on their way to and from hunting and fishing areas, even if they have no game or fish to be checked.

Inspection: Wildlife taken must be shown to FWP enforcement for inspection when requested.

Kill Site Verification: As a condition of hunting in Montana, you may be required to return to the kill site if requested to do so by an FWP employee.

Marked or radio-collared animals: It is legal to shoot big game animals that have radio collars, neck bands, ear tags and/or other markers, but markers and radio collars must be returned to FWP. Please report the killing of a marked animal to the local FWP office.

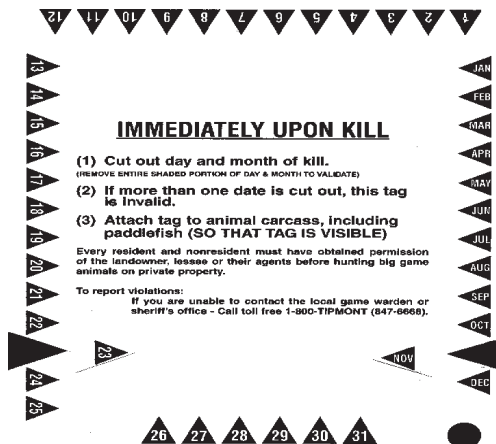

Harvest Survey: Montana FWP conducts an annual telephone survey beginning in early January for 5 to 6 weeks to gather hunting and harvest information from both resident and nonresident hunters. Telephone interviewers located across the state call from their homes mid-week evenings and weekends to speak to hunters one-on-one to get the most accurate information possible. Wildlife managers use the results to evaluate hunting seasons and set quotas, season dates and other regulations.

Continued on page 10

Procedures to Follow Upon Harvesting an Animal

License Validation and Tagging: Immediately after killing a game animal, hunters must cut out the proper month and day of the kill from the appropriate license and attach it to the animal in a secure and visible manner.

To properly validate a license (sometimes referred to as a "tag"), locate the month and day the animal was killed and completely cut away (notch out) the month and day designations. The example below shows a properly validated license for an animal taken on November 23. Be aware, only one correct month and day designation must be removed completely from the license. Removing more than one month or more than one day invalidates the license. To secure the license to the animal, you can use black electrician's tape to wrap the license around a leg or antler.

The properly validated license must remain with the meat (including cold storage) until consumed. If quartered, the license should remain with the largest portion of the carcass.

Evidence of Game Animal's Sex: It is illegal to possess or transport the carcass of any big game animal unless evidence of the animal's sex and species remains naturally attached to its carcass or a portion of the carcass. The easiest way to meet this requirement is to leave the animal's head attached to the carcass. However, if the animal's head is removed (including quartered, boned-out or skinned animals) some other evidence of sex must remain naturally attached to the carcass or a portion of it. The following are considered lawful evidence of sex for horned or antlered game animals. For specific requirements for black bear and mountain lion, refer to the respective species regulations.

- **Male:** head with the horns or antlers naturally attached, penis, testicles, or scrotum.
- **Female:** head or udder (mammarys).

Evidence of an animal's sex and species must remain naturally attached until the animal's meat is processed (cut and wrapped) or delivered to a taxidermist. If you have questions on how to apply the regulations in your particular situation, please contact your local game warden or regional FWP enforcement.

Game Retrieval: Hunters may in some instances drive off established roads and trails to retrieve game. In all cases, when on private lands, hunters must first obtain permission from the landowner. In the case of public lands, the policy or law varies. BLM public lands allow motorized travel on roads and trails unless designated closed. On National Forest lands, restrictions to motorized travel are described on Travel Plan maps available at local U. S. Forest Service offices. On National Wildlife Refuges, all off-road travel is prohibited. For further information, contact the appropriate land management agencies.

Transport of Wildlife: An individual other than the license holder may transport properly tagged animals that comply with the "Evidence of Sex Requirements" and that were lawfully taken by the license holder. If you have specific questions please contact FWP Enforcement at 406-444-2452.

- All shippers of fish, game or nongame birds, game animals, fur-bearing animals, the skins of fur-bearing animals or predatory animals, or parts thereof are required to label all packages offered for shipment by parcel post or common carrier (airlines or UPS, etc.). The label must be securely attached to the address of the package and shall plainly indicate the names and addresses of the consignor and consignee and the complete contents of the package. It is a violation of the Federal Lacey Act to transport an illegally taken game animal across state boundaries.
 - It is illegal to ship, possess, or take out of state illegally killed game, game birds, and/or furbearers. If you are transporting lawfully taken wildlife (including parts and/or products of live or dead animals) between Montana and Canada or between the United States and any foreign country, whether for commercial or noncommercial purposes, you must complete a U.S. Fish & Wildlife Service (USFWS) Declaration form (Form 3-177). Form 3-177 is available at all United States customs ports and on the USFWS web site at www.fws.gov. Additional federal permits may also be needed to import/export wildlife, depending on the species. For further information contact the USFWS Wildlife Inspector at 406-335-4350.
 - Because of fears about the introduction of chronic wasting disease (CWD), a number of states have instituted regulations prohibiting the import of certain deer or elk carcass parts. If you are a nonresident hunter and plan on transporting your harvested animal back to your home state, you should check with your state regulatory authorities concerning current regulations. Chronic wasting disease has not been detected in free ranging deer or elk populations in Montana.
 - Montana residents harvesting deer, elk or moose in Colorado, Illinois, Nebraska, New Mexico, New York, South Dakota, Utah, West Virginia, Wisconsin, Wyoming, and the provinces of Alberta and Saskatchewan will be restricted as to what can lawfully be brought back to Montana. Hunters returning from those states with harvested deer, elk, or moose may only bring back:
 1. Meat that is cut and wrapped
 2. Quarters or other portions of meat with no part of the spinal column or head attached.
 3. Meat that has been boned out.
 4. Hides with no heads attached
 5. Clean (no meat or tissue attached) skull plates with antlers attached
 6. Antlers with no meat or tissue attached
 7. Upper canine teeth, also known as "buglers", "whistlers" or "ivories"
 8. Finished head, partial body or whole body mounts already prepared by a taxidermist.
- Keep in mind that "Evidence of Sex Requirements" must always be met when transporting any of these parts back into Montana.

Waste of Game: Hunters, or persons in possession of a game animal or game animal parts, are prohibited from wasting or rendering unfit for human consumption, any part of a game animal that is defined as "suitable for food." For big game animals (excluding mountain lions), all of the four quarters above the hock, including loin and backstrap, are considered suitable for food.

Other Hunting Rules and Statutes

Airplane Spotting: Aircraft may not be used to locate big game animals for the purpose of:

- hunting those animals within the same hunting day after a person has been airborne; or
- providing information to another person for the purpose of hunting those animals within the same hunting day after being airborne.

- The same hunting day in these contexts is defined as between the earliest and latest legal hunting hours.

Antler/Horn/Skull Possession: Hunters may possess, transport, sell, or purchase naturally shed antlers, or the antlers with a skull or portion of a skull attached from a game animal that has died from natural causes and that has not been illegally or accidentally killed. Because road-killed animals have not died from natural causes, the carcass or parts of protected or regulated species may not be salvaged or possessed. It is illegal to possess a bighorn sheep head picked up in the wild.

Dogs: MCA 87-3-124 states that persons may not use dogs to hunt (which includes pursue or chase) game or fur-bearing animals. Exceptions under this law allow using dogs to hunt game birds during the appropriate season, and allow the FWP Commission to regulate the use of dogs for hunting and chasing mountain lions and bobcats.

Game Calls: It is illegal to use a recorded or electrically amplified game call to hunt big game.

Glandular Scents: Natural or artificial glandular scents may be used by licensed hunters to attract game animals or game birds by spraying or pouring the scent on the ground or other objects. Hunters may not create a scent station where the scent continues to be dispensed without the hunter's direct action, such as an automatic device, which drips or otherwise continues to dispense scent. Scents may not be used to attract bears. No scents other than glandular may be used for attracting animals, but other scents may be used to mask human odor. Hunters should be aware that the use of scents could attract bears (black or grizzly) to themselves!

Littering: A person convicted of littering while hunting, fishing, or camping may lose his or her license and privileges to hunt, fish, trap, or camp within Montana for a period of one year.

Motion-tracking Devices: It is illegal for a person to possess, while hunting, any electronic motion-tracking device that is designed to track the motion of animals and relay information on the animal's movement to the hunter. This includes, but is not limited to: remote operated camera or video devices; seismic devices; electronic trip wires, photo beam, or laser devices used to activate tracking or recording devices; thermal imaging devices; and satellite and radio-telemetry tracking devices. A radio-tracking collar attached to a dog when hunting mountain lion and/or bobcat is not considered a motion-tracking device or mechanism for the purposes of this regulation.

Two-way Communication: Two-way communication may not be used to:

- hunt game animals or upland game birds, migratory birds or furbearers as defined in MCA 87-2-101 (8) ("Hunt" means to "pursue, shoot, wound, kill, chase, lure, possess or capture."), or
- avoid game checking stations, FWP enforcement personnel, or to facilitate illegal activity.

When hunting mountain lions or bobcats with dogs, this rule applies when hounds are placed on tracks in a district open to lion or bobcat harvest. The rule does not prohibit the possession or use of two-way communication for safety or other legitimate purposes, nor does it prohibit the use of radio tracking equipment to locate hounds when hunting mountain lions or bobcats.

Motorized Vehicles: Hunters may not use a motorized vehicle (including OHVs) or aircraft to concentrate, drive, rally, stir-up, corral, or harass game animals. On public lands it is illegal to operate a motorized wheeled vehicle off legal routes (including game retrieval). All federally approved travel plans on public lands in Montana are hereby adopted by the FWP Commission. Motorized travel in restricted areas in violation of any current travel plan or land use plan is prohibited during the

hunting season. For further information, contact the appropriate land management agencies.

Night Vision Equipment: It is illegal to use night vision equipment or electronically enhanced light gathering optics for locating or hunting game animals.

Off-Highway Vehicle (OHV): In order to operate an OHV on public lands, the OHV must be registered. For use on most public roads, an OHV must be registered as a motor vehicle and display a license plate. For off-road use on legal trails, OHVs must be registered and display an OHV decal. Residents must register their OHV at their County Treasurer's office. Nonresidents must register their OHV in their home state or purchase a temporary Off-Highway Vehicle use permit from FWP. The permit is \$5 and expires on December 31, of the year issued. Examples of an OHV include but are not limited to: motorcycles, quadricycles (also known as 4-wheelers), dune buggies, amphibious vehicles, air cushion vehicles, and any other means of land transportation deriving motive power from any source other than muscle or wind.

Outfitters and Guides: It is illegal to hire an outfitter or guide not licensed by the Department of Labor and Industry. For information, call 406-841-2372.

Party Hunting: Party hunting is illegal in Montana. Each hunter must shoot his/her own animal. A hunter is prohibited from loaning or transferring his or her license to another person. It is illegal to use a license issued to another person. It is illegal to use one's hunting license to tag a big game animal killed by someone else.

Predator and Nongame Hunting: Predators and nongame species, except prairie dogs, are unprotected by Federal and/or state law or regulation and can be hunted in Montana year-round without a license by both resident and nonresident hunters. A conservation license, or a state school trust lands recreational use license, is required to hunt predators and nongame species on state school trust lands. Permission must be obtained to hunt on private land.

Predators include coyote, weasel, (striped) skunk, and civet cat (spotted skunk). Nongame species are defined as any wild animal not otherwise legally classified by statute or regulation in Montana. Examples include badger, raccoon, red fox, hares, rabbits, ground squirrels, marmots, tree squirrels, and porcupines.

Furbearers are protected species that may only be taken by residents with a valid trapping license during prescribed seasons. Furbearers include beaver, otter, muskrat, mink, marten, fisher, wolverine, bobcat, lynx, and swift fox.

Prohibited Methods of Taking: It is illegal for anyone to hunt or attempt to hunt any game animal or game bird:

- from any self propelled (that is, motorized) or drawn vehicle. Even if the vehicle is not moving, hunters must be off or out of the vehicle. Holders of PTHFV are the exception to this;
- on, from, or across any public highway or the shoulder, berm, barrow pit or right-of-way of any public highway (the entire width between the boundary lines of every publicly maintained way when any part thereof is open to the use of the public for purposes of vehicular travel, (MCA 61-1-202) in the State of Montana); or
- by the aid or with the use of any set gun, jacklight, spotlight or other artificial light, trap, snare, salt lick, or bait. (MCA 87-3-101). Baiting shall mean the placing, exposing, depositing, distributing, or scattering of corn, wheat, or other grain or food sources so as to constitute a lure or attraction.

Restitution for Illegally Taken Wildlife: Under Montana law a person convicted (or who was charged and forfeited bond or bail) of illegally killing, taking, or possessing a trophy animal shall reimburse the state. The law sets the amount of restitution for each animal under MCA 87-1-115 as:

• Bighorn sheep	\$30,000
• Elk	\$ 8,000
• Antlered deer	\$ 8,000
• Moose	\$ 6,000
• Mountain goat	\$ 6,000
• Pronghorn antelope	\$ 2,000

The law specifically outlines minimum standards for a trophy under this regulation, but authorizes the FWP Commission to adopt more specific criteria.

Shooting of Alternative Livestock: An alternative livestock (game farm) licensee may not allow elk, deer, or other animals classified as alternative livestock to be shot on his/her facility for a fee or any other type of compensation.

Simulated Wildlife: It is illegal to discharge a firearm or other hunting implement at a simulated wildlife decoy in violation of any state statute or commission rule regulating the hunting of the wildlife being simulated.

Transporting Horses and Mules in Montana: The Montana Department of Livestock requires a veterinary inspection certificate and an import permit prior to entry of horses or mules into Montana. A brand inspection certificate is required for movement within Montana. For further information call Montana Department of Livestock at 406-444-2045.

Traps: Trapping is a lawful activity in Montana. It is illegal to disturb traps or trapped animals.

Weed Control and Weed-Free Hay: Montana requires use of certified weed-free hay, grain, straw, mulch, cubes and pelletized feed on federal lands. Contact the Montana Department of Agriculture at 406-444-5400. Infestations of noxious weeds reduce the amount of available food for wildlife and livestock.

Montana is Bear Country

Be Bear Aware!

Hunters must be able to tell the difference between a grizzly and a black bear because grizzly bears cannot be legally hunted in Montana.

Three simple rules will help you make the right decision:

1. Learn how to identify bears.
2. Be absolutely sure of your target.
3. If in doubt, don't shoot.

Look for a combination of characteristics.
Their color and body size can be misleading!

BLACK BEAR

GRIZZLY BEAR

Mandatory bear identification testing is required to purchase a black bear license. Check FWP's website.

Carry Bear Pepper Spray and Know How To Use It!

- Hunting puts you at risk of encountering a bear. Calling game and using scents may attract bears.
- If you hunt alone, let someone know about your plans. If you feel uneasy hunting alone, hunt with a partner.
- Pay attention to fresh bear sign. Communicate with others and let them know when bears have been seen and/or fresh sign observed.
- Some bears may move in the direction of a gunshot because they learned to associate the sound with a gut pile or carcass.
- The golden rule is "get the game animal out of the area as quickly as possible." The longer a carcass remains lying on the ground, hung up in camp, or stored in the back of a truck, the more likely it will be discovered by a bear.
- Carcasses left for a period of time require special care. Carry a colored, lightweight tarp or space blanket. Put the guts on the tarp and drag them a few hundred feet away from the carcass. Locate an observation point 200 yards (if possible) away from the carcass with a clear line of sight.
- When returning, approach the observation point carefully. Yell or whistle repeatedly. With binoculars study the scene from the observation point and scan the area for the carcass and any movement. If a bear is at the site and refuses to leave or the meat has been covered up with debris by a bear, report the incident to FWP.
- Do not attempt to frighten away or haze a bear, especially a grizzly.
- Bears are opportunists and change their behavior to take advantage of new food sources. Always assume that grizzlies are in the area and make sure your camps, cabins, and homes are bear proof, and that bear attractants are unavailable or contained.
- Carry bear pepper spray. Keep the spray within reach and know how to use it. In sudden grizzly encounters pepper spray has proven effective. Bears sprayed in the face at close range often stop attacking.
- Mentally rehearse a worst-case scenario with encountering a bear. "If the mind has never been there before, the body does not know how to respond."
- As a last resort, if attacked, play dead. Lie face down, covering your neck and head with your hands and arms. If you have a backpack leave it on to protect your back. Stay face down, never look at the bear and remain still until the bear is gone. Many people survive bear attacks using this method.

CLOSED TO HUNTING FOR BIG GAME

Moose Specific Information

Definitions

- Antlered Bull - any moose having an antler or antlers of at least four inches in length measured from the top of the skull.
- Antlerless - a female or juvenile male with an antler or antlers less than four inches in length measured from the top of the skull. FWP suggests hunters not take a moose with a calf at side.

Licenses and General Information

- An applicant who receives a moose license is not eligible to receive or apply for another license for moose for the next succeeding 7 years. For example, if you received a moose license in 2000, you may not receive or apply for another until 2008.
- License holders may legally take one moose subject to all specifications on the license issued.
- Hunters harvesting a moose must leave evidence of sex naturally attached to the carcass.

Moose License Auction

- Legislation authorizes the Fish, Wildlife & Parks Commission to provide for the auction of a moose license each year. This license authorizes the hunter to take an antlered bull moose in any district of his/her choice. This license is not a part of the seasons proposed and if this license holder is successful, the moose will not be counted against the district quota. This license holder may hunt only in areas open to moose hunting.
- The auction is held annually during the winter by a conservation organization that is preselected by the FWP Commission.
- Hunting is authorized for the next hunting season, not the current years' hunting season.
- Money raised through the license auction is used for management of moose.

Moose HD Regulations

Residents are eligible to apply for any of the following licenses. Nonresidents are restricted to certain districts. Nonresidents are limited to, but not guaranteed 10 percent of a region's quota. **Districts where nonresidents may apply are listed on the moose, bighorn sheep, mountain goat nonresident application, but may change when final quotas are set in June.**

Mountain Goat Specific Information

Licenses and General Information

- An applicant who receives a mountain goat license is not eligible to receive or apply for another license for mountain goat for the next succeeding 7 years. For example, if you received a mountain goat license in 2000, you may not receive or apply for another until 2008.
- License holders may legally take one mountain goat subject to all specifications on the license issued.

Mountain Goat Mandatory Reporting Requirements

- A hunter harvesting a mountain goat must present the complete head with horns attached or the top portion of the skull with horns attached to a department official within 10 days of the date of kill. See back cover for FWP office phone numbers.

CLOSED TO HUNTING FOR BIG GAME

Bighorn Sheep Specific Information

Definition

- Adult ewe - a female bighorn sheep - one year old or older. Lambs (young of year) are not included.

Licenses & General Information

- License holders may legally take one bighorn sheep, subject to all specifications on the license issued.
- Bighorn ram horns greater than one-half curl must be plugged or pinned at any Fish, Wildlife & Parks office within 10 days after harvest. A listing of designated personnel and phone numbers will be provided to all bighorn sheep license holders.
- It is illegal to possess a bighorn sheep head picked up in the wild.
- There are limited and unlimited bighorn sheep licenses.
 - **Limited Licenses** - A limited bighorn sheep license is awarded only through the special drawing and are designed to limit the number of hunters in a specific hunting district(s). Hunters may apply for one limited license area only and it must be their first and only district choice, with the exception of an adult ewe which may be listed as a second district choice.
 - An applicant who receives a limited either sex or legal ram license is not eligible to receive or apply for another bighorn sheep license for the next succeeding seven years. For example, if you received one of the limited either sex or legal ram bighorn sheep licenses in 2000, you may not receive or apply for another bighorn sheep license until 2008.
 - **Unlimited Licenses** - Unlimited bighorn sheep licenses have no limit on the number of licenses sold and may be available from License Providers, including FWP Online Licensing or, the hunter has the option of applying by the May 1 deadline through the drawing process.
 - Unlimited bighorn sheep licenses are available in districts 300, 303, 500 and 501.
 - An unlimited bighorn sheep license purchased through the special drawing must be listed as your first and only district choice.
 - Unlimited bighorn sheep license districts with harvest quotas sometimes close a few days after the opening date.
 - Licenses are nonrefundable and a hunter may not change the selected hunting district, even if a district closes before the hunter has participated in a hunt.
 - An applicant who receives a legal ram license is not eligible to receive or apply for another sheep license for the next succeeding seven years. For example, if you received one of the limited either sex or legal ram sheep licenses in 2000, you may not receive or apply for another sheep license until 2008.
 - Unlimited bighorn sheep hunting districts are assigned a harvest quota. Unlimited bighorn sheep license hunting districts will close on a 48-hour notice. When the quota is reached or approached, the bighorn sheep season in that district will close. Any ram harvested by a hunter will be counted against the quota.
 - Current harvest information may be obtained by calling the appropriate Fish, Wildlife & Parks Regional Headquarters during normal business hours.
 - The department makes an attempt, through news releases and back country contacts, to inform hunters of bighorn sheep hunting district closures. However, it is the hunter's responsibility to be aware of season status.

Bighorn Sheep License Auction

- Legislation authorizes the Fish, Wildlife & Parks Commission to provide for the auction of a bighorn sheep license each year. This license authorizes the hunter to take a "legal" or greater ram in any district of his/her

choice. This license is not a part of the seasons proposed and if this license holder is successful, the bighorn sheep will not be counted against the hunting district quota. The license holder may only hunt in areas open to hunting (i.e. if an unlimited area closes due to reaching the quota, the license holder may not hunt in that area).

- The auction is held annually during the winter by a conservation organization that is preselected by the FWP Commission.
- Hunting is authorized for the next hunting season, not the current years' hunting season.
- Money raised through the bighorn sheep license auction is used for management of bighorn sheep.

Bighorn Sheep Mandatory Reporting Requirements

- A hunter harvesting a bighorn sheep with a license valid for a "legal ram" must not alter the head and horns as to affect determination of legality.
- A hunter harvesting a bighorn ram must personally present the complete head and cape intact within 48-hours to any Fish, Wildlife & Parks office, game warden, or designated employee in the administrative region where the bighorn ram was taken. At that time, a transportation permit will be issued. See back cover for FWP office phone numbers.

Judging A "Legal Ram" 3/4 Curl

- When a straight line extending from the front base of the horn through any portion of the eye opening intercepts any portion of the horn, the ram is legal. If the horn is not long enough to be intercepted by the line, the ram is not legal.
- Base of the horn shall be considered as the point where the horn meets the hairline of the head. See illustration below.
- Determination of a legal ram should be made from a broadside view of the head.
- Successful applicants for bighorn sheep should contact the department if they need the Montana Guide to Bighorn Bighorn sheep.

Annual HUNTING & HARVEST Survey

"We're counting on you!"

For over 20 years, Montana Fish, Wildlife & Parks has conducted an annual telephone survey to gather hunting and harvest information for Montana game species. The survey begins in mid January and continues into March.

Telephone interviewers located across the state call from their homes mid-week evenings and weekends to speak to hunters one-on-one to get the most accurate information possible. Results from the statewide survey are used by wildlife managers to evaluate hunting seasons and to set permit quotas, season dates and other regulations.

So when your phone rings in the coming months, you might not recognize the name on Caller ID but it could be a friendly Fish, Wildlife and Parks interviewer hoping to visit with you about your hunting!

Stay Informed.
